Submission of Project Completion Report to KSCST (Upload to Google Form)	April / May 2026			

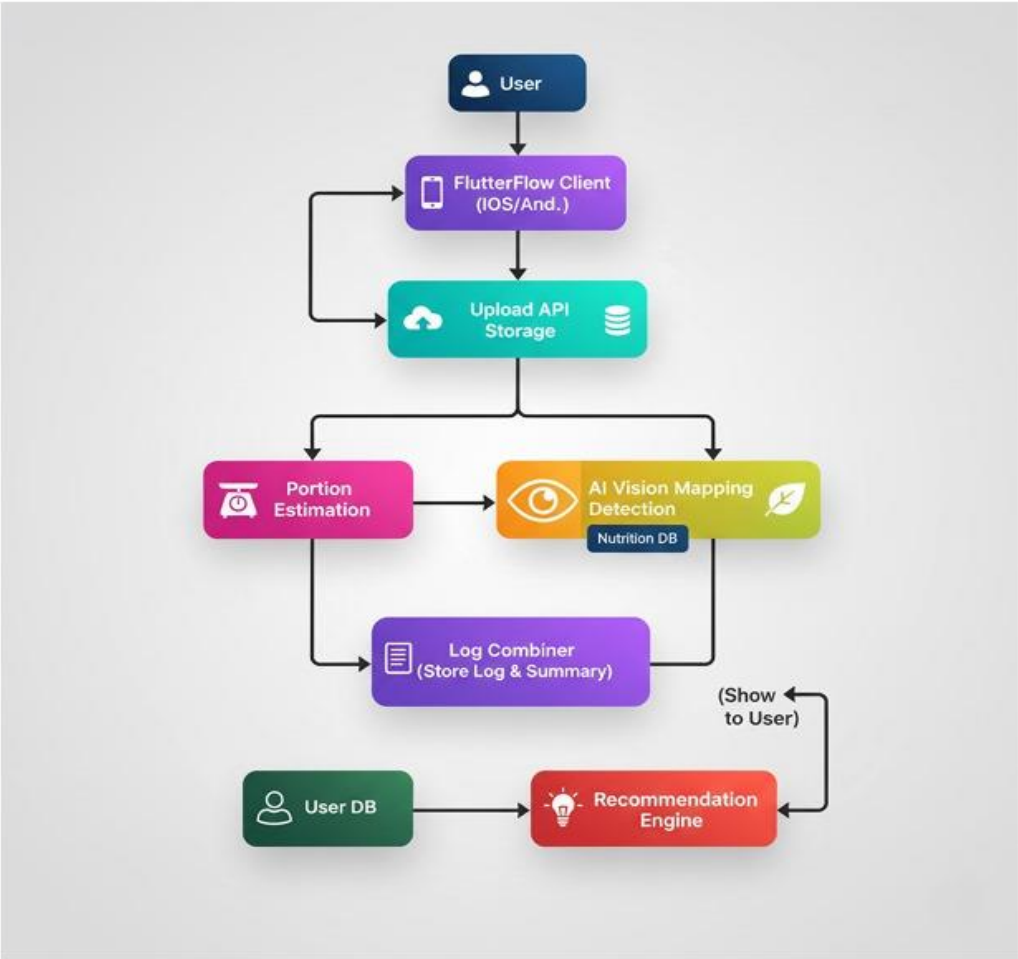
Scope / Objectives of the project:

Objectives:

1. To develop an App that generates personalized fitness and diet plans.
2. To integrate real-time health tracking.
3. To provide Al-driven therapy and wellness suggestions for mental and physical well-being.
4. To create user-friendly dashboard for tracking progress and receiving recommendations.

Methodology:

The proposed system allows users to enter their personal details such as age, gender, height, weight, diet type, and health goals, which serve as the foundation for personalized recommendations. Daily meal logs, activity levels, and lifestyle habits are recorded in real time, and all data is securely stored in Supabase with encryption and live updates. Advanced AI models like GPT and Gemini analyze user patterns to generate personalized diet plans, calorie and nutrition breakdowns, and customized fitness or workout routines. A dynamic recommendation system continuously compares the user's actual activity with their target goals and automatically adjusts the plans to maintain progress. The entire application is developed in Flutterflow using a modular design, ensuring smooth navigation, scalability, and easy integration of future features. Users can access real-time health insights and tailored guidance through an intuitive, user-friendly dashboard.



Note: In case of fabrication work in the project, an engineering drawing with dimensions / detailed design should be attached to the proposal.

Expected Outcome of the project:

1. Accurate AI-based detection of multiple food items and portion sizes from a single image.
2. Automatic calculation of calories and nutrients without manual food logging..
3. Personalized diet and fitness recommendations based on user health goals.

4. Increased user engagement through simplified tracking and real-time insights.

5. Improved health awareness and decision-making through visual dashboards and feedback.

Is the project proposed relevant to the Industry / Society or Institution?

Yes / No: Yes

If yes, please provide details of the industry / institution and contact details:

The project is highly relevant to the healthcare and fitness industry, as many hospitals, nutrition centers, fitness startups, and wellness platforms require AI-driven personalized health monitoring solutions. Industries using wearable devices and digital health management systems can adopt this application to improve user engagement, preventive healthcare, and real-time wellness tracking. Institutions such as health clinics, gyms, and wellness centers can utilize the system to offer personalized diet and fitness recommendations to their clients.

(**Note:** Preference will be given to those projects relevant to the industry / institution. Hence be specific in giving detailed information). Is the industry extending support - technology / funds / use the final product, please specify.

Can the product or process to be developed in the project be taken up for filing a Patent?

Yes / No: Yes

Prior Art search done?

Yes/No: No

Note: If your answer is "Yes", you may contact Patent Information Centre of KSCST. For more details, email: pic@kscst.org.in

Budget details (break-up details should be given):

Note: KSCST will provide nominal grant support for carrying out the project by students if selected by the project selection committee.

Budget	Amount
a) Open AI credits	4000
b) Labor (Describe)	0.00
c) Travel (Describe)	0.00
e) Miscellaneous (Report,Documentation)	1000

	Total	5000

	Any other technical details (Please specify): The system uses Generative AI models (GPT/Gemini) for personalized recommendations and real-time insights. Supabase provides secure encrypted data storage with live updates and authentication. The app is built using Flutterflow with a modular UI for easy navigation. Real-time analytics process user data to generate diet, fitness, and wellness suggestions. The system is scalable, supports future wearable integrations, and ensures strong security through encrypted communication and access control.
	SPP Coordinator (Identified by the college): **Note:** To be identified by the principal of the institution. The project proposals must be submitted to KSCST through SPP coordinator designated by the principal. **Name: Dr. Shashikant Cholake** **Email id: mech.sgcholake@bldacet.ac.in** **Contact No.: 9176489203**

DECLARATION

(From Project Students)

(To scan this page and enclose in the project proposal)

We, the project team hereby declare that the details enclosed in the project proposal (Title of the Project : Generative AI For Personalized Healthcare , Branch: Computer Science and Engineering, College: BLDEA's V.P. Dr. P.G. Halakatti College of Engineering and Technology, Vijayapur) are true and correct to the best of our knowledge and belief. We undertake to inform the Karnataka State Council for Science and Technology (KSCST) of any changes to the project title or team members' names immediately through our project guide or the SPP Coordinator of our institution.

Additionally, we declare that the project work is original and not a result of copying or purchasing. We are committed to completing the project independently, with support from our faculty and project guide, while utilizing the facilities provided by the college. We will not engage in plagiarism and pledge to be sincere and dedicated in executing and completing the project as proposed.

We understand that if any of the above information is found to be false, untrue, or misleading, we may be held liable. We authorize the sharing of the project information contained in this proposal with KSCST, Bengaluru.

We acknowledge that the project team must exhibit and demonstrate the project, participate in the mid-term evaluation of sanctioned projects, and engage with experts. Additionally, we must exhibit the project at the Annual State-Level Poster Presentation and Exhibition, if selected. Should our team fail to participate in the mid-term evaluation or the Annual Exhibition (if selected), we understand that the supported project funds will be returned to KSCST.

We also enclose the endorsement form for KSCST, Bengaluru.
